

Sora Reading App by OverDrive

Sora is a new reading and listening app from OverDrive and Granite School District. With Sora, students and staff can access a large collection of ebooks and audiobooks for independent, recreational, or teacher-assigned reading. Students can read or listen to these books using a Chromebook, desktop computer, or personal mobile device.

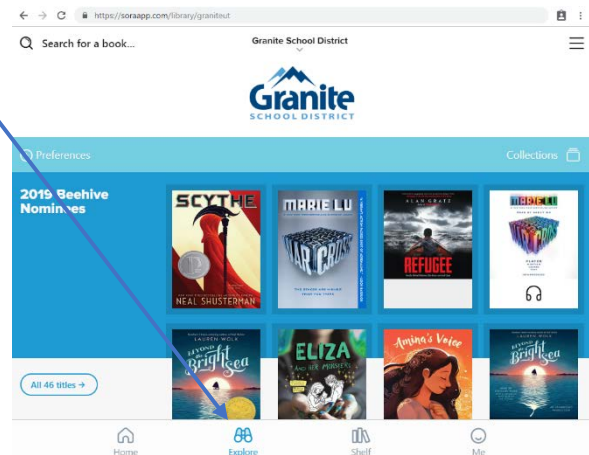

Getting Started

1. Go to <https://soraapp.com> using a web browser on any computer or device. (If you are using an Android or Apple mobile device you can also install the Sora app from your device's app store.)
2. Use the setup code **graniteut** or tap "Find my school." (You can click on any school that is part of Granite School District.)
3. Enter the username (student number) and password that you use to log in to school computers.

4. Click the **Explore** tab to search for and borrow a book. Your book will open so you can start reading or listening right away.
5. You can keep a book for 14 days. You can check out up to 3 books at a time. You can place holds on books that are checked out.
6. Close the book and go to your **Shelf** to see all your books. From there, you can:
 - Tap **Open Book** or **Open Audiobook** to read or listen to a book.
 - Tap **Options** to renew or return the book, get to your notes and highlights, and more.

Have questions or need help? Ask your school library/technology staff and visit sora.edtech.fun for videos and help documents.
